**PROGRESS REPORT**

On behalf of Ibanda Literacy schools and on my own behalf, wish to take this moment to submit this progress report to your attention. In the first instance we want to thank you for the continued financial support that has surely helped us in developing our community work. Below are the briefs concerning our schools progress;

- ✓ Our schools started well; we are beginning exams next week and then break off on 29/11/2023.
- ✓ We have started construction of new classroom block to accommodate P.3 at Kibirizi campus next year 2023. You can see the classes at dump course level in the picture below.
- ✓ Kitchen gardening is in high gear which we hope will help our community in improving nutritional standards at household levels. This can be seen on the pictures below;
- ✓

Smartness at our campuses has improved as you can see pupils with their teachers at Kibirizi campus;

The photo below was taken after the parents meeting together with staff at Kibirizi campus. It was aimed on how the community can help in getting more pupils come next year (2023).

*Rabbit unit in progress with 50 rabbits. Leeks in a sack garden*

Recruitment meetings for more pupils are going on in all our campuses.

We want to thank God for having guided you to recover the funds that we had thought were lost. May God continue guiding you. The funds that we are using to construct the two classrooms talked about above are improvised from the modest school fees we get from pupils; however it is still a challenge because not all parents pay for their children. Some other funds are got from the sales of our vegetables got from our vegetable/kitchen gardens around the school as seen in the photos above.

Personally, I want to also inform you that I have completed my masters' degree course and passed very well. Thank you for the financial contribution towards my education. Graduation is scheduled to take place in February 2024. I don't have enough words to thank you but only to say may God bless you abundantly and I will send you my final results as soon as I receive them. On the same note, I would love and wish to visit the Hope projects UK if given an opportunity. I feel we have been friends for so long and I should therefore visit you and other friends of ours in UK.

Once again, may God reward you and the entire administration of Hope Projects UK and your Quaker Meeting. Yours Zelina
